Skills

Programming Languages

- C
- Java
- Python

Web Technologies

- HTML
- CSS
- JavaScript

Frameworks and Libraries

- React
- Next.js
- Tailwind CSS

Database Technologies

- MySQL
- Drizzle ORM

Other Skills

- Relational Database Design and Implementation
- Full-Stack Development
- Leadership
- Collaboration
- Effective Communication
- Problem-Solving
- Adaptability
- Innovation

JAYIA REID

Professional Summary

Jayia is a computer programming student, building a solid foundation in programming languages and technologies. Her proven ability to quickly grasp new concepts, combined with her strong problem-solving, collaborative and leadership skills and her desire for continuous learning, makes her an asset ready to contribute effectively to any team.

Education & Awards

April 2026

Computer Programming and Analysis - Advanced Diploma

Humber College, Toronto, Canada

- Awards:** Honors List [Fall 2023], Honors List [Winter 2024]
- Relevant Courses:** Database Programming, Object-Oriented Programming, Advanced Front-End Programming, Statistical Data and Analysis, Web Programming and Design, Algorithms and Problem Solving, Operating Systems, Fundamentals of Numeric Computing, Database Concepts and Design

Experience & Projects

Guardsman Limited | Kingston, Jamaica

May 2024 - Current & June - August 2023

Data Processing Intern

- Created a comprehensive Excel database to track employee information, licenses, and other essential data.
- Populated the database with accurate and up-to-date employee information.
- Organized and restructured the existing data management system to improve data accessibility and retrieval.

Guardsman AVSEC

Role: Full-Stack Developer

Technologies Used: Full-Stack Web Technologies

Description:

- Initiated the development of a web application to improve efficiency at my internship company
- Digitized employee data management, eliminating the need for physical files
- Skills Demonstrated: Full-Stack Development, Process Improvement, Initiative

Task Force Website

Role: Project Leader

Technologies Used: HTML, CSS, JavaScript

Description:

- Led the development of a security company website showcasing services with contact and purchase options
- Managed a team, coordinated tasks, and ensured effective communication and collaboration

- Skills Demonstrated: Leadership, Teamwork, Web Development

StuCo Study Platform

○ **Role:** Full-Stack Developer

Technologies Used: React, Express.js, MySQL

Description:

- Developed a comprehensive study tool platform offering calculators, note-taking, and conversion services
- Marked my entry into full-stack development and applied concepts from advanced frontend and database coursework
- Skills Demonstrated: Full-Stack Development, Database Design, Problem-Solving

StuCo Management

○ **Role:** Full-Stack Developer

Technologies Used: Next.js, Tailwind CSS, Drizzle ORM

Description:

- Created an application for school administrators to manage students, schools, and various services
- Enhanced my skills in Next.js, Tailwind CSS, and database technologies
- Skills Demonstrated: Full-Stack Development, Database Technologies, Project Management

Java Airlines

○ **Role:** Co-Developer

Technologies Used: Java

Description:

- Developed a flight booking and ticket management system in collaboration with another developer
- Solidified my understanding of Java programming principles and comprehensive system design
- Skills Demonstrated: Java Programming, System Design, Collaboration

Experiment Analyser

○ **Role:** Developer

Technologies Used: Java

Description:

- Created a tool to receive experiment results and analyze outcomes based on statistics
- Received perfect marks and is a personal favourite
- Skills Demonstrated: Java Programming, Data Analysis, Independent Work

Poke Pokemon Database

○ **Role:** Frontend Developer

Technologies Used: React

Description:

- Developed a Pokémon database allowing users to view, interact with, and manage Pokémon cards
- Showcased proficiency in frontend development and received perfect marks
- Skills Demonstrated: Frontend Development, React, User Interface Design
